

Instructions/Installation Cover Plate Assembly, DSA

The Cover Plate Assembly, DSA should be installed on the bottom of the lowest enclosure of a cluster. Looking up at the uncovered bottom of a cluster you will see the contrast between the dark electrical panel and the light finish of the enclosure. The Cover Plate Assembly, DSA is designed to hide the dark electrical panel and finish the installation.

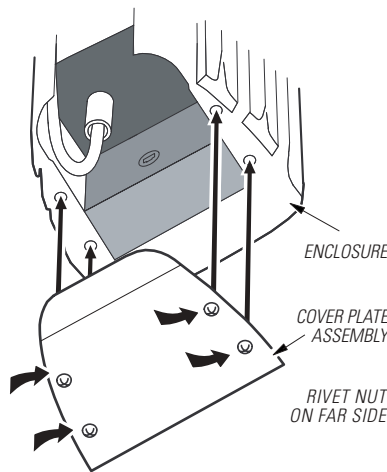

Warning: Installing the Cover Plate Assembly, DSA should only be done by an experienced technician. Improper installation may result in damage to the equipment or injury.
